"To protect the community and employees from the threat of the COVID-19 virus in Mason County, Twin Totems Closed March 18th and is closed to the public until further notice. The gas pumps will remain open to the public using credit/debit transactions.

Twin Totems will open, Thursday, March 19, 2020 for TRIBAL AND COMMUNITY MEMBERS ONLY from 1:00 PM to 7:00 PM.

Twin Totems will be allowing no more than 10 total people in the store at any one time, practicing socially distancing, keeping plenty of hand sanitizer and disinfectant available in several locations and updating our check-out procedures to minimize our contact.

We will not be serving deli food, fountain soda, self-serve coffee or offer any type of serve-yourself or deli-style services for the health and safety of everyone. We may change business hours or other aspects of the business as we receive new information about the COVID-19 virus.

We will be bringing in all of the essential products, such as toilet paper, hand sanitizer, fruits and vegetables, etc. that we can source as they come available (they have already been ordered). Stay safe, stay home as much as possible and look for Twin Totems updates on this Facebook page".

We have not selected an end date to this privatization of Twin Totems, and do not know if we will continue this long term, but we will test it and make a determination from there. Our goal is to provide services to Tribal and community members during our state of emergency with minimal Tribal member and employee exposure.
