Attention Skokomish Community

Thank you to all who are staying home. You are helping save lives and slow the spread of the COVID-19 VIRUS.

It is with great hope that you and your family are safe and well. The Skokomish Tribal Buildings have been closed with only a few essential staff in the buildings and majority of the staff working telework within the Tribe. If you have additional questions about services during this time, please call the Skokomish Tribal Center at 360-426-4232 and your call will be directed to the appropriate department. Staff are onsite at the Tribal Center from 9 to 4 Monday-Thursday and until Noon on Fridays.

Tribal Council has provided guidance to take a slow and phased approach to reopening the Tribe. Telework will continue as information develops. For now, Tribal Departments will continue to work on system creation, policy and procedures necessary to keep Skokomish safe and healthy.

</table>

The Tribe is respectfully following the guidelines set by Governor Jay Inslee, while maintaining our sovereignty and making adjustments as needed pertaining to the Skokomish Tribe. It is important to know the governor’s COVID-19 order and the phases, as you may travel into town for essential needs and will need to comply with the orders.

GOVERNOR JAY INSLEE’S NEW COVID-19 ORDER AND PHASES:

- Friday, May 1, 2020, Governor Inslee announced an extension of the Stay Home, Stay Healthy order as well as a four-phased approach to reopening Washington State. The four-phased approach is as follows:
Phase 1 begins May 5 with the reopening of some recreational activities, including day use at state parks, playing golf, fishing, and hunting.

Phase 2 will allow small gatherings of five or fewer people, new construction, and reopening of barber shops, salons, and pet care services.

Phase 3 will allow gatherings of up to 50 people, including sports activities, and non-essential travel may resume.

Phase 4 will involve resuming the majority of public interactions. Gatherings of more than 50 people will be allowed, but, until a vaccine is available, we will still need to stay at least six feet away from other people.

PLEASE CONTINUE TO TAKE CARE OF OUR FAMILIES AND HELP PREVENT THE SPREAD
